

Tool Instruction

- Overview of tool components

What you need to do

- In this design stage, you have **15 minutes** to design and iterate your design over and over until you can help your client find his/ her dream chair.
- You will have **1 minutes** after the deadline to finish up before you are forced into next stage.
- After this stage, you will be asked to pick **1 final image** that best represents your ideal chair design for your client.

Your goal now is to explore different design concepts for a chair to satisfy your client's needs. You have 15 minutes to create prompts that will generate images of chairs. Use the heart icon to add images to your favorites. In the next stage, you will pick one chair for your client from your favorites list. You can only advance to the Next step after 15 minutes.
